U20-12/24 12/24VDC LED STRIP LIGHT

UAG SERVICES

Description

U20-12/24 is a Multi-Voltage (12V/24V) LED compartment light. Made from a strong aluminium housing and covered by a Polycarbonate diffused recessed lens for added protection. Designed to be robust and strong for the commercial market with multi applications from tool boxes to interior lighting. Supplied pre-wired with 18AWG cable ready for installation. End caps supplied to hide the screws and cable to give a professional finish.
